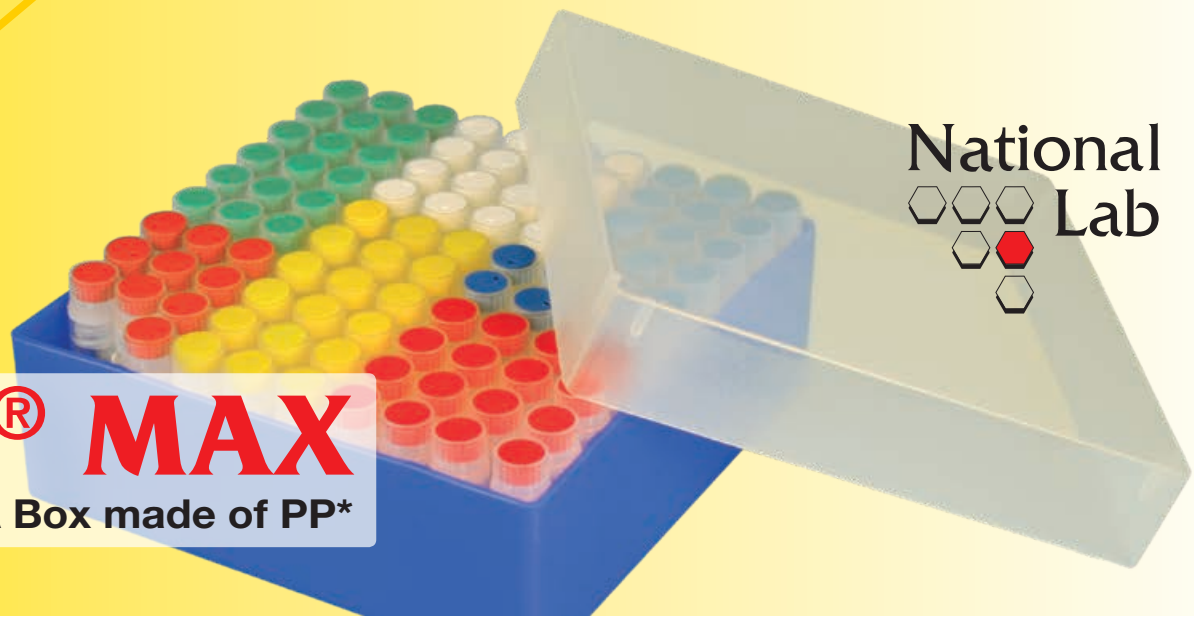
NEW



National Lab

Why do only 81 cryo tubes fit into your cryoboxes?

The answer is quite simple: it's because you're not yet using our super-slim EPPi cryo tubes, which at last enable you to store 100 tubes in our standard boxes. You probably won't find anyone able to explain why the unpopular 9x9 boxes were invented and have more or less established themselves as the standard throughout the world. Now, in any case, this expensive waste of space is over.

Your specimen material is valuable, rare or even unique. You are aware of the contamination risk when working with cryo tubes. If you have previously opted for contamination-prone tubes with an inner thread and silicon O-ring, there is no further need to keep making this "compromise", which has hopefully been free of consequences. Now 100 EPPi cryo tubes with external thread fit into the standard box of 133x133 mm. Check out the benefits for yourself.

EPPi® Cryo Tubes

- GMP-oriented production under cleanroom conditions.
- Extensive and very detailed quality control measures during the production process.
- Batch inspection system with leak test to validate the process.
- Exclusive use of FDA-approved polypropylene for in vitro diagnostics. Both tube and screw top are made of the same medical grade material to achieve a 100% seal.
- The outer thread with QuickLock screw closure and the screw top with safe-sealing lip enable the tubes to be closed very quickly and opened with only half a rotation.
- Packaged in resealable upright pouches with batch label.
- EPPi cryo tubes can be printed individually to meet customer requirements. Personalized barcodes and QR codes are also possible.

- Manufactured in accordance with ISO 13485, ISO 9001, ISO 14001
- Produced to GMP guidelines in a cleanroom
- Compliant with the criteria for medical devices as per In Vitro Diagnostic Directive (IVDD) 98/79/EC
- Produced from FDA-approved polypropylene with an usable range from -196 °C to +121 °C
- Not cytotoxic according to ISO 10993-5
- Free of heavy metals and plasticizers
- RNase-/DNase-free, DNA-free
- ATP-free
- BSE-/TSE-free
- Pyrogen-free
- Sterilized to ISO 11137-2:2013
- VDMax25 Validation
- Sterility Assurance Level of 10^{-6}
- Centrifugable up to 17,000 g

EPPi® Box made of Polypropylene

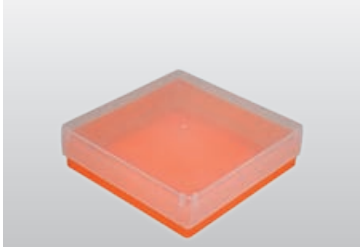
130 x 130 mm · Empty boxes without grid divider

EPPi® 37 • height 37 mm fix

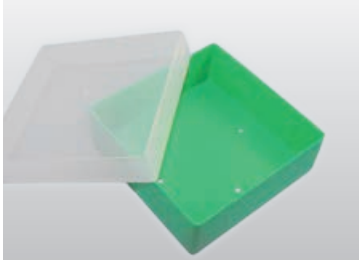


Example: KEA37-C1NO

Inner heights: Lower section 26 mm, base to lid 35 mm.

Cat. No. KEA37-C1__

EPPi® 45 • height 45-53 mm variable



Example: KEA45-V1GR

Inner heights: Lower section 42 mm, base to lid 42 – 50 mm.

Cat. No. KEA45-V1__

EPPi® 50 • height 52 mm fix

Example: KEA50-C1VT

Inner heights: Lower section 42 mm, base to lid 50 mm.

Cat. No. KEA50-C1__

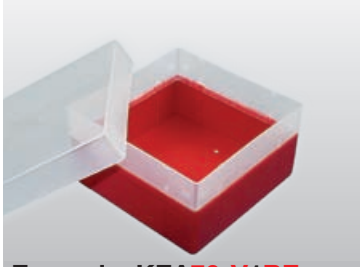
EPPi® 67 • height 67 mm fix

Example: KEA67-C1NP

Inner height: Lower section 42 mm. base to lid 64 mm.

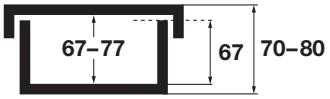
Cat. No. KEA67-C1__

EPPi® 70 • height 70-80 mm variable



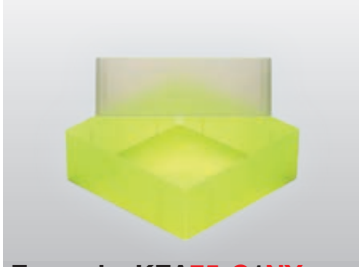
Example: KEA70-V1RE

Inner heights: Lower section 67 mm, base to lid 67 – 77 mm.



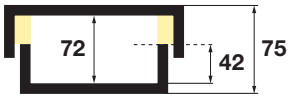
Cat. No. KEA70-V1__

EPPi® 75 • height 75 mm fix



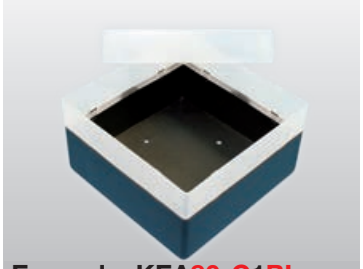
Example: KEA75-C1NY

Inner height: Lower section 42 mm. base to lid 72 mm.



Cat. No. KEA75-C1__

EPPi® 80 • height 80 mm fix



Example: KEA80-C1BL

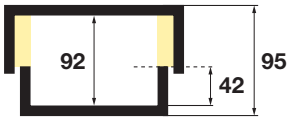
Inner heights: Lower section 67 mm, base to lid 77 mm.

Cat. No. KEA80-C1__

EPPi® 95 • height 95 mm fix

Example: KEA95-C1NO

Inner height: Lower section 42 mm. base to lid 92 mm.

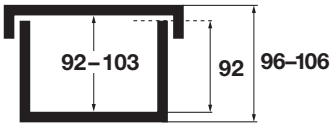


Cat. No. KEA95-C1__

EPPi® 96 • height 96-106 mm variable

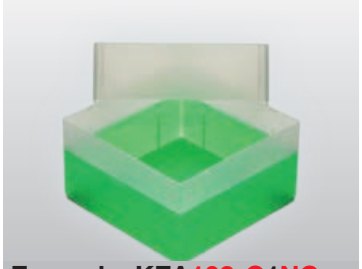
Example: KEA96-V1YE

Inner heights: Lower section 92 mm, base to lid 92 – 103 mm.



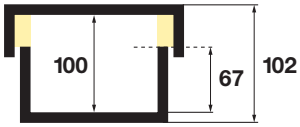
Cat. No. KEA96-V1__

EPPi® 102 • height 102 mm fix



Example: KEA102-C1NG

Inner height: Lower section 67 mm. base to lid 100 mm.



Cat. No. KEA102-C1__

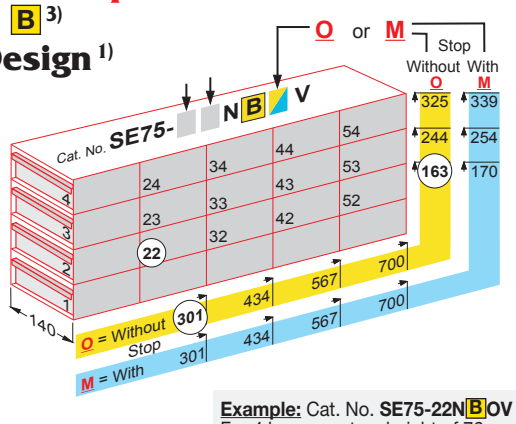
For 9 boxes up to a height of 76 mm
(e.g. EPPi 75).
With safety stop. Base of drawers open.
Dimensions: WxDxH = 140x434x254 mm

EPPi® 70 + 75 Drawer Racks

With Hand Grip
Version B [3)]
Open Design [1)]



Example: Cat. No. **SE75-22NBOV**
For 4 boxes up to a height of 76 mm
(e.g. EPPi 75).
Without safety stop. Base of drawers closed.
Dimensions: WxDxH = 140x301x163 mm

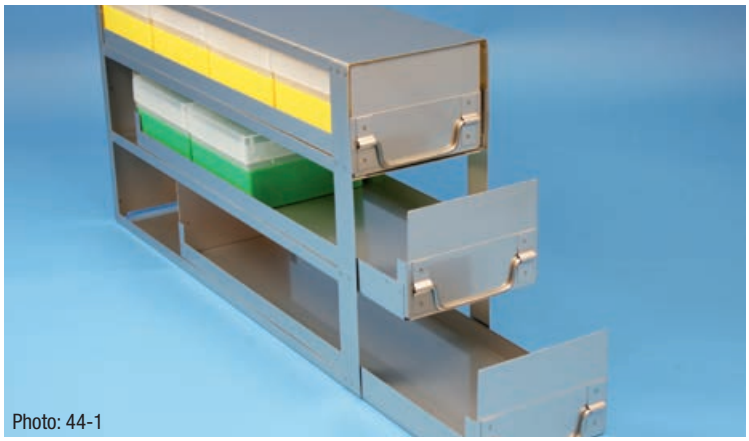


Photo: 44-1

Photo: 44-2

[1)] All drawer racks can also be supplied with a closed design (See illustrations on page 42 – 43). Please enquire if needed.
[2)] All drawer racks can be produced as a combo drawer rack for shallower boxes (e.g. EPPi 50) to exploit the interior space of uprights to the maximum.
[3)] The drawer inserts can also be supplied in a modified design »F«. See page 43 for an explanation of the differences.

When used with item number given in the overview (beginning with "RA1..."), grid dividers are always supplied separately (standard supply).

Instead of the customary method of supplying the box and grid divider separately, the box can be supplied with the grid divider already inserted (no surcharge!). For this purpose the code in the item number for the grid divider (highlighted in yellow) must be added to the item number of the box.

Example: ALPHA Box of height 50 mm, white, standard as well as inserted grid divider of height 30 mm with 10x10 cells.

KA1050WH1 + 0301010N = Cat. No. KA1050WH10301010N

ALPHA Drawer Racks

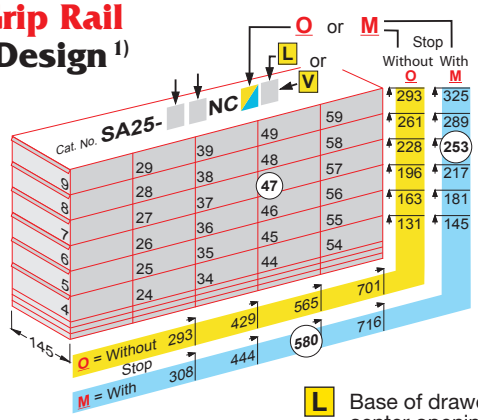
Width 145 mm · Stainless steel

ALPHA 25 Drawer Racks

With Grip Rail
Open Design [1)]



Example: Cat. No. **SA25-47NCMV**
For 28 boxes up to a height of 28 mm (e.g. ALPHA 25).
With safety stop. Base of drawers closed.
Dimensions: WxDxH = 145x580x253 mm

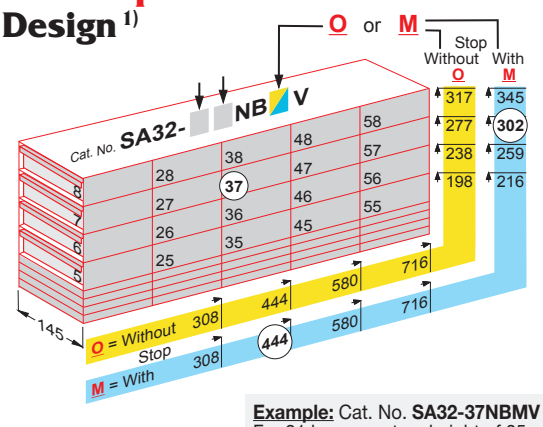
L Base of drawer with center opening. Facilitates removal and insertion.

V Base of drawer closed.

See illustrations on page 54

ALPHA 32 Drawer Racks

With Hand Grip
Open Design [1)]



Example: Cat. No. **SA32-37NBMV**
For 21 boxes up to a height of 35 mm (e.g. ALPHA 32).
With safety stop. Base of drawers closed.
Dimensions: WxDxH = 145x444x302 mm

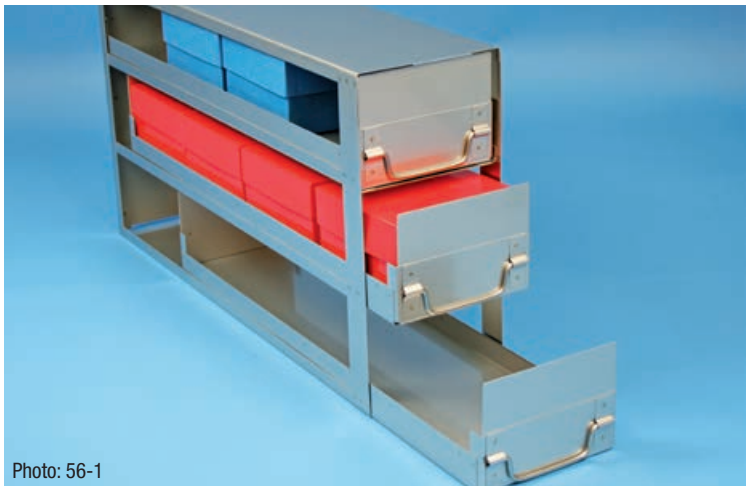


Photo: 56-1

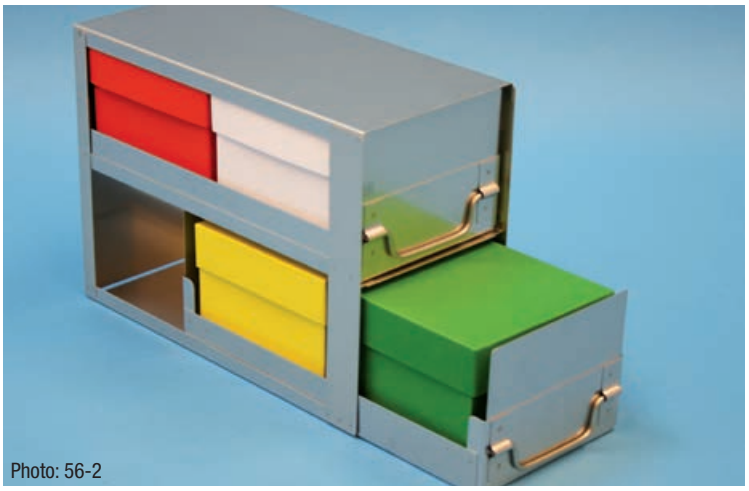

Photo: 56-2

Photo: 56-3

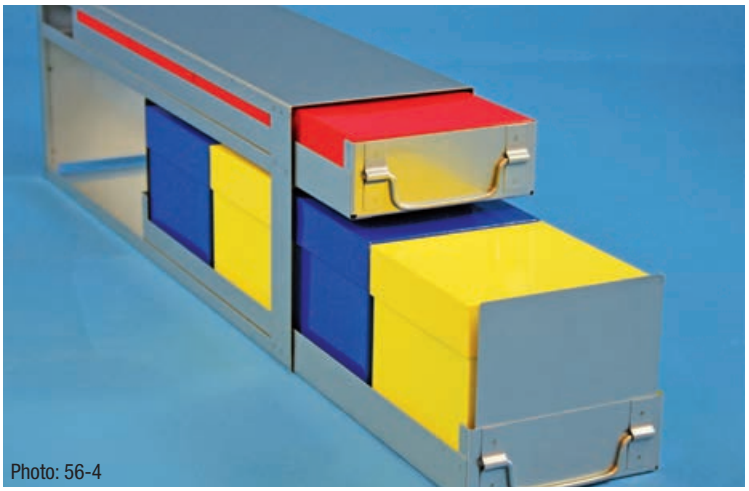

Photo: 56-4

[1)] All drawer racks can also be supplied with a closed design (See illustrations on page 54–55). Please enquire if needed.
[2)] All drawer racks can be produced as a combo drawer rack for shallower boxes (e.g. ALPHA 50) to exploit the interior space of uprights to the maximum.
[3)] The drawer inserts can also be supplied in a modified design »F«. See page 55 for an explanation of the differences.

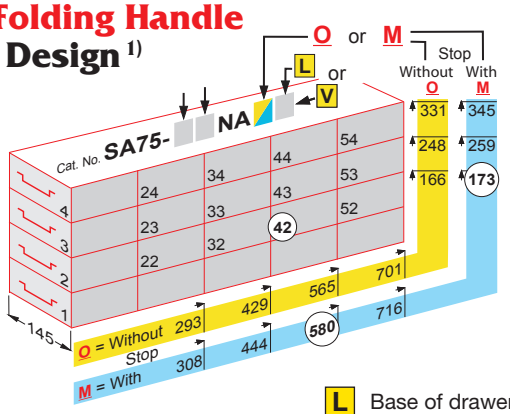
ALPHA Drawer Racks

Width 145 mm • Stainless steel

ALPHA 75 Drawer Racks

With Folding Handle
Open Design [1)]



Example: Cat. No. **SA75-42NAML**
For 8 boxes up to a height of 78 mm (e.g. ALPHA 75).
With safety stop. Base of drawers open.
Dimensions: WxDxH = 145x580x173 mm

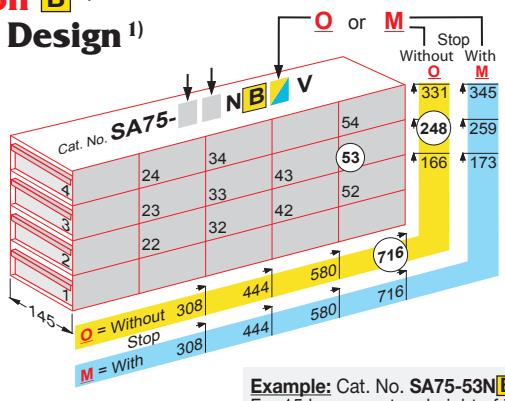
L Base of drawer with center opening. Facilitates removal and insertion.

V Base of drawer closed.

See illustrations on page 54

ALPHA 75 Drawer Racks

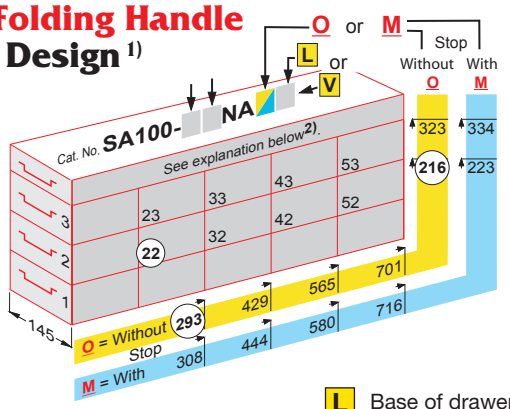
With Hand Grip Version B [3)]
Open Design [1)]



Example: Cat. No. **SA75-53NBOV**
For 15 boxes up to a height of 78 mm (e.g. ALPHA 75).
Without safety stop. Base of drawers closed.
Dimensions: WxDxH = 145x716x248 mm

ALPHA 100 Drawer Racks

With Folding Handle
Open Design [1)]



Example: Cat. No. **SA100-22NAOL**
For 4 boxes up to a height of 103 mm (e.g. ALPHA 100).
Without safety stop. Base of drawers open.
Dimensions: WxDxH = 145x293x216 mm

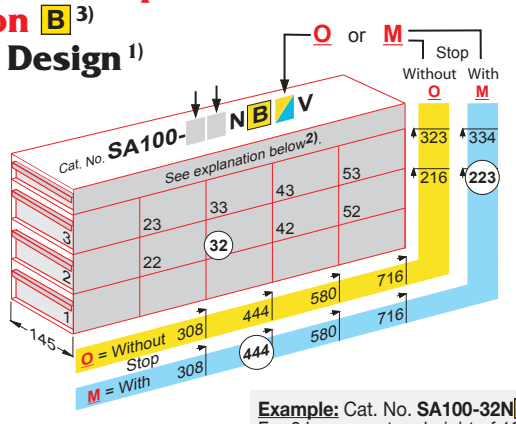
L Base of drawer with center opening. Facilitates removal and insertion.

V Base of drawer closed.

See illustrations on page 54

ALPHA 100 Drawer Racks

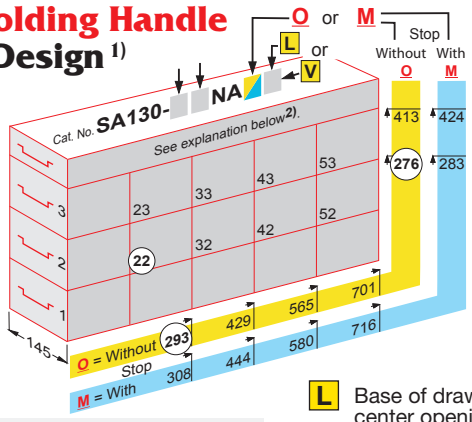
With Hand Grip Version B [3)]
Open Design [1)]



Example: Cat. No. **SA100-32NBMV**
For 6 boxes up to a height of 103 mm (e.g. ALPHA 100).
With safety stop. Base of drawers closed.
Dimensions: WxDxH = 145x444x223 mm

ALPHA 130 Drawer Racks

With Folding Handle
Open Design [1)]



Example: Cat. No. **SA130-22NAOL**
For 4 boxes up to a height of 133 mm (e.g. ALPHA 130).
Without safety stop. Base of drawers open.
Dimensions: WxDxH = 145x293x276 mm

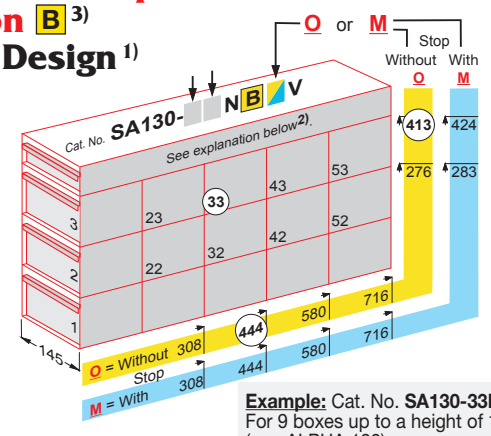
L Base of drawer with center opening. Facilitates removal and insertion.

V Base of drawer closed.

See illustrations on page 54

ALPHA 130 Drawer Racks

With Hand Grip Version B [3)]
Open Design [1)]



Example: Cat. No. **SA130-33NBOV**
For 9 boxes up to a height of 133 mm (e.g. ALPHA 130).
Without safety stop. Base of drawers closed.
Dimensions: WxDxH = 145x444x413 mm

When used with item number given in the overview (beginning with "RB2..."), grid dividers are always supplied separately (standard supply).

Instead of the customary method of supplying the box and grid divider separately, the box can be supplied with the grid divider already inserted (no surcharge!).
For this purpose the code in the item number for the grid divider (highlighted in yellow) must be added to the item number of the box.

Example: BRAVO Box long2 with 50 mm height, white, standard as well as inserted grid divider of height 30 mm with 9x18 cells.

KB2050WH1 + 0300918N = Cat. No. KB2050WH10300918N

When used with item number given in the overview (beginning with "RM1..."), grid dividers are always supplied separately (standard supply).

Instead of the customary method of supplying the box and grid divider separately, the box can be supplied with the grid divider already inserted (no surcharge!).
For this purpose the code in the item number for the grid divider (highlighted in yellow) must be added to the item number of the box.

Example: MIKE Box with 50 mm height, white, standard as well as inserted grid divider of height 30 mm with 10x10 cells.

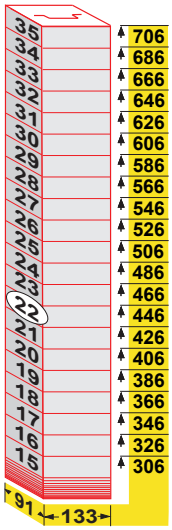
Microtiter Vertical Racks

For MT-Plates 86 x 128 mm (WxD) • Stainless steel

For Microtiter Plates or DeepWells of all familiar brands.

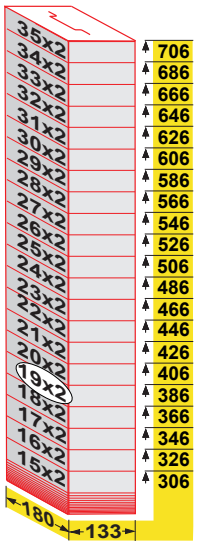
Up to 18 mm plate height

Single



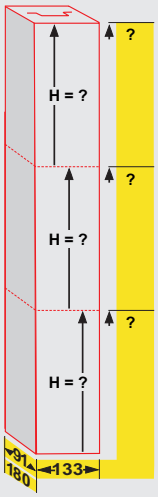
Example:
Cat. No. **TM18-22AN**
Vertical rack
with 22 bays
(Individual bays)

Double



Example:
Cat. No. **TM18-19x2AN**
Vertical rack with
19 bays (2 plates next to
each other in each bay)

Personal Rack



If the examples shown here do not meet your storage needs, please let us know your requirements:

- Maximum height of the rack?
- Height of the plate stack or required internal height of the bays?
- How many racks are needed?

You will receive an individual quotation from us.

All vertical racks can be supplied with a safety rod if required. The depth increases by 7 mm as a result. Please enquire if needed.

FoxBox 136x136 mm • 10x10 Grid Divider

Plastic-coated fiberboard box, waterproof.
With alphanumeric ID code on the side as well as numeric ID code 1-100 on the lid. Inserted grid divider 10x10 for 100 tubes up to approx. 12.5 mm Ø.
Height of grid divider 30 mm.
Other colours and dimensions can be produced on request.

Cat. No.	Ext. Height	Grid Divider	Colour	Inner Height

Isotherm Quick Freeze + Isotherm Mini Cooler

Isotherm Quick Freeze -70°C

For 12 tubes from 0.5 to 2.0 ml. With alphanumeric ID code on the transparent lid and the lower section.
For rapid and repeated refrigeration in the molecular biology laboratory. Can be used repeatedly for up to 45 minutes. Made of resistant polycarbonate filled with non-toxic insulating fluid. No direct contact between the tube and the insulating fluid. With non-slip feet.

Volume	Time taken to attain			
	-20°C (isopropanol)		0°C (water)	
1.5 ml*	with isopropanol	2.0 min.	with water	3.2 min.
0.5 ml*	with isopropanol/adapter	2.8 min.	with water	4.0 min.

* Time taken with micro centrifuge tubes (approx.)

Cat. No.	Colour	Cells	Tubes (ml)	WxDxH (mm)
LCCQ51140012	white	4x3	0.5 up to 2.0	151x108x125

Isotherm Mini Cooler 0.5 ml / 2.0 ml

For tubes from 0.5 to 2.0 ml. With alphanumeric ID code on the lid and the lower section.
Temperature-conditioning of reagents (enzymes, DNA, RNA, cell suspensions, etc.) on the laboratory bench. Made of resistant polycarbonate filled with non-toxic insulating fluid. No direct contact between the tube and the insulating fluid. With non-slip feet.

Cat. No.	Temp.	Colour	Cells	Lid	Storage time	WxDxH (mm)

LCCM51150032C	-20°C	yellow	8x4	without gel	<-15°C/1 hrs.	243x157x100**

** Height without fastening clip. With fastening clip in place, the height increases by approx. 50 mm.

Isotherm Mini Cooler 15 ml + Vacutainer[1)]

For 12 centrifuge tubes 5 ml and 15 ml respectively Vacutainer[1)].
With alphanumeric ID code on the transparent lid and the lower section.

Made of resistant polycarbonate filled with non-toxic insulating fluid.
No direct contact between the tube and the insulating fluid.
With non-slip feet.

Cat. No.	Temp.	Colour	Cells	Lid	Storage time	WxDxH (mm)
LCCM51161600	0°C	red	4x3	without gel	<1°C/5 hrs.	197x140x190

Isotherm Mini Cooler + Cryo Freezer

Isotherm Mini Cooler -20°C PCR

Specially developed to protect enzymes and other biological specimens while working at the laboratory bench. Removable aluminium block with 96 holes in universal 96-well standard format. Mini Cooler made of resistant polycarbonate filled with non-toxic insulating fluid. With non-slip feet.

With alphanumeric ID code on the aluminium block.

0.2 ml PCR tubes individually or in strips as well as 96-well plates are maintained at between -15°C and -20°C for up to 2 hours.

Cat. No.	Temp.	Cells	Lid	Storage time	WxDxH (mm)
LCCM96PCR	-20°C	12x8	without gel	<-20°C/2 hrs.	220x163x150**

** Height without fastening clip. With fastening clip in place, the height increases by approx. 50 mm.

Cryo Freezer 1°C

Made of transparent polycarbonate. Lid and tube holders made of HDPE, with foam liner.

Enables critical, repeatable cooling rate of approx. 1°C/minute for successful cryopreservation and optimum cell yield.

Easy to use with 100 % isopropanol and a freezing device. For up to 18 cryo tubes from 1.0 to 2.0 ml. No direct contact between the tubes and the alcohol. Instructions for use printed on device. Stackable.

Cat. No.	Tubes	Dimensions (mm)
LCC5100	18	H x Ø = 86 x 117, Lid-Ø 120

Straight-Side Wide-Mouth Jars

for specimen storage

Straight-Side Wide-Mouth Jars

Large wide-necked opening for easy filling. Made of transparent polycarbonate with white or blue PP closure. Window-clear. High impact resistance. Non-toxic. Stackable. Popular screw-top jar also for freezing down to -90°C. Fully unscrew the lid prior to autoclaving.

Safety clamping springs

The safety clamping springs ensure that the cryoboxes are firmly secured in vertical and horizontal racks. They are simply placed on the lid of the cryobox and pushed into the slot together with the cryobox. This prevents the cryoboxes from slipping out if the rack is tilted. There is no further need to worry about the risk of samples sliding out when work is being carried out on upright freezers and chest freezers or during transport. When the cryobox is withdrawn, the safety clamping spring is removed together with the cryobox. The safety clamping springs are suitable for all racks and boxes if the gap between the cryobox and the base above it is between 1 and 6 mm. Suitable for all makes.

Thorbi® Cryo tubes, colour inserts and Cryo tube rack

Thorbi® Cryo tubes • external thread • sterile

- gamma sterilized
- in resealable bags
- RNase-/DNase-/DNA- and pyrogen free
- not cytotoxic, cadmium free
- USP Class VI, SAL 10^{-6}
- Made of PP. Autoclavable.
- Colour-coded due cap inserts (please order separately).
- temperature-resistant from -196 °C up to +121 °C
- for storage in the vapour phase of liquid nitrogen
- graduated, with writing area
- fast unscrewing and tightening
- star-base foot, free-standing
- single-handed operation with EPPi® Cryo tube rack possible (see below)

Nothing is impossible!

Well-organized freezers and refrigerators are an essential prerequisite for systematic, efficient and ultimately successful work – not only in scientific laboratories.

We provide the means to fulfil this prerequisite and devote ourselves to the task from a sense of conviction and with passion.

In fact, it is a passion for practical details and our liking for intelligent solutions.

This catalogue contains many suggestions for the interior fittings of all brands of refrigerator and freezer cabinets as well as freezer chests.

If you are looking for a solution to a problem or need assistance in setting up your refrigeration equipment, please contact us.

We will always be able to offer you a solution and will be glad to help you.
