

MIKROLAB AARHUS A/S

HPLC Certified Polypropylene Disposable Syringes

HPLC certified, non sterile disposable syringes made of solvent robust polypropylene for all syringe filter applications

- Each manufactured batch is HPLC controlled and supplied with an appropriate certificate upon request. The certificate clearly states column and other method conditions being used for the test.
- Syringes manufactured according to ISO 13485 (Medical devices)
- Luer Lock manufactured according to ISO 594-2 / DIN EN 1707
- Luer Slip manufactured according to ISO 594-1 / DIN EN 20594-1
- Two-part, all-plastic construction made of a chemically resistant, inert polypropylene
- No rubber plunger seals or silicone lubricants that may cause sample contamination
- Free of latex, free of plasticizers, free of PVC
- Safe functional back-stop feature
- Easy to read permanent graduations
- All Luer Lock syringes have centered tips
- Available with Luer-Lock and Luer Slip connections

Combine the syringes with our high-quality HPLC syringe filters.

Available in sizes 17mm, 25mm and 30mm.
Further cost-free test samples upon request!
